

VEHICLE TRANSPORT POLICY

Corporate Standards & Regulatory Compliance

Policy ID: VTP-2026-GLOBAL

Effective Date: May 28, 2026

Scope: Canada & European Union Operations

Version: 1.0

1. Purpose and Scope

This policy outlines the mandatory procedures and regulatory requirements for the transport of company vehicles and commercial freight via road, rail, and sea within Canada and the European Union (EU). It ensures safety, environmental responsibility, and legal compliance across multiple jurisdictions.

2. General Requirements

2.1 Driver Qualifications

- All drivers must possess a valid license for the specific vehicle class.
- **EU:** Drivers must hold a Certificate of Professional Competence (CPC) where applicable.
- **Canada:** Compliance with National Safety Code (NSC) standards is mandatory.

2.2 Vehicle Maintenance

Vehicles must undergo pre-trip inspections and adhere to scheduled maintenance cycles. Documentation of such inspections must be kept in the vehicle at all times.

3. Regional Regulatory Compliance

Feature	Canada (Provinces/ Territories)	European Union (Member States)
Driving Hours	Max 13 hours driving in a day / 14 hours on-duty.	Max 9 hours daily (can be increased to 10h twice a week).
Logging	Electronic Logging Devices (ELD) mandatory for most.	Smart Tachograph (Version 2) mandatory for new vehicles.
Weight Limits	Varies by province; generally up to 63,500kg (B-Train).	Standard limit 40 tonnes (44t for intermodal combined).

4. Cross-Border Operations

4.1 Internal EU Movement

Movement between EU member states is governed by the principles of the Single Market. No customs duties apply, but VAT rules for Intra-Community acquisitions must be followed. CMR (Convention on the Contract for the International Carriage of Goods by Road) notes are mandatory.

4.2 Inter-Provincial Movement (Canada)

Drivers must ensure compliance with specific provincial weights and dimensions regulations, which may vary (e.g., Ontario vs. Quebec). International Registration Plan (IRP) documentation must be current.

5. Environmental Standards

Important: Operators must comply with local Low Emission Zones (LEZ) and Clean Air Zones, particularly in major EU cities (e.g., Paris, Berlin, Milan) and Canadian metropolitan areas.

6. Safety and Incident Reporting

In the event of an accident or vehicle breakdown:

1. Secure the scene and verify safety of all personnel.
2. Notify local authorities as required by law.
3. Complete the Internal Incident Report within 24 hours.
4. For spills involving hazardous materials, immediate notification to environmental agencies is mandatory.

7. Policy Acknowledgement

All employees and contractors involved in transport operations are required to sign an acknowledgement form indicating they have read, understood, and agree to comply with this policy.
